

NON-TEACHING EMPLOYEE OF THE YEAR

MRS. MEYERS

Born and raised in Vincennes, Indiana Mrs. Meyers attended her first of a six year community consolidation high school, but was a student of the first class to start as freshmen and graduate four years later. While in high school, she was a member of a pom pom drill team, member of the booster pep club, and also the business club. After graduating, she continued on to Vincennes University, which she attended for one year. She met her now husband, Greg, on a group blind date, and, after dating for a few years they were married. They recently celebrated their fortieth anniversary. While

her husband was playing football for Indiana University, she was working in the Registrar's office. Greg went on to become a coach. They now have four children and six grandchildren. After her husband's coaching job brought them to Florida, their children followed after and starting their own families, planting the whole family. Meyers has been employed by the Polk School Board for almost six years.

As our attendance secretary she is responsible for keeping records of the students' attendance. This means whether your skipping, absent, or present, she will know, and your teachers and parents will too! She also serves as alternate clinic personnel, and office

secretary, answering phones and assisting people when they enter our school. If this seems like it may be too much for one person to handle, fear not, our school-related employee of the year is well prepared. With courses in Genesis training, attendance training, full time employee training, first-aid, Medical log training, and CPR training, she can take on anything. She has had tons of practice too. Eighteen years of employment in another school district has preconditioned her for the hectic environment of AHS.
